## Flood Buzz™ Pro

**Warns consumers of a leak before it becomes a flood!**  
**Place the Flood Buzz™ Pro next to potential leak spots**  
**water heaters, under sinks, mechanical rooms, etc**  
**Alarm sounds when it detects a leak**  
**Up to 110dB alarm**

Flood Buzz™ Pro is an easy-to-use, low-cost, patent-pending, loud and effective water leak alarm designed to help mitigate damage caused by water leaks and to serve as a key marketing tool for plumbing contractors.

Plumbers can personalize the Flood Buzz™ Pro with their company name and contact information right on the unit. By placing the 2 3/4" high x 1 1/2" diameter alarm in their customers' homes - next to the water heater, under sinks, sump pumps, etc. - plumbers will get that service call when the Flood Buzz™ Pro sounds a 110 dB alarm. For plumbers, it's like having their business card right there when their customers need them.
