69-11005	male-female

HOSE BIBB LOCKOUT

Secures any 3/4" threaded hose bib and vacuum breaker assembly
Eliminates unauthorized water usage. Promotes water conservation.
Substantial water bill saving
Simple installation:
Fasten Brass-fitting assembly to standard hose bib thread.
Ensure sealed connection is tight and does not leak.
Slide hardened zinc cover over fitting assembly and allow padlock eye to protrude through.
Attach padlock through hardened zinc padlock eye, use
9/32" or 1/4" padlock shackle
69-19000 Hose Bibb Lockout
69-19500 Hose Bibb Lockout and Lock and Keys

BRASS "Y" STRAINER

Heavy brass construction • Stainless steel screen •
Maximum pressure 150 PSI
For use in vertical and horizontal pipe work with blanking cap downward
Install upstream to protect meters, regulators, valves and other equipment from dirt and rust.
