THREADED ROD ANCHOR SYSTEM - TRAS

Anchoring into concrete, wood, and metal substrates suitable for solid base materials.

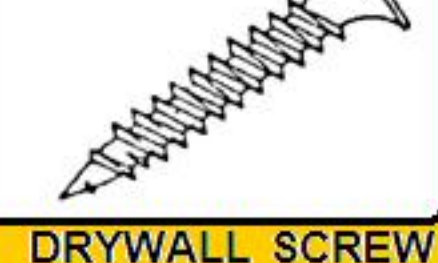

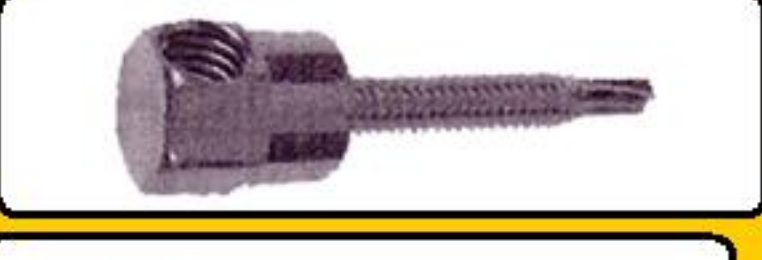

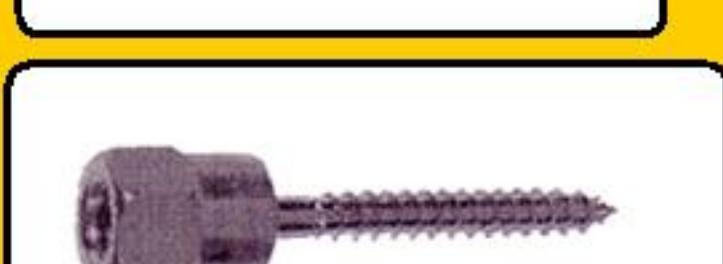

A one-piece self-drilling screw style mechanical anchor (steel and wood)

A one-piece self-tapping screw style mechanical anchor (concrete)

A fast, safe and user-friendly method to hang rod overhead

Simple installation reduces costs and improves efficiency

| rod size                               | screw shank size & length | point style |                      |                        |
